

God Answers Prayer for Crippled Inmate

By Chaplain Don Gillis, Irwin County D.C. in Ocilla, GA

I want to thank everyone at CLI so much for the work you do in supplying books to inmates all over the country. I have just received my shipment and wanted to relate how God uses your work to reach the people behind bars.

I had in medical segregation an elderly gentleman who was crippled and could not get around without the use of a wheelchair. This man also suffered from bad eyesight and had been asking me for a large print Bible so that he could read God's Word. I had searched through all of my material and our library but could find nothing in large print. I prayed to God to help me find a Bible that this man could read.

The following day, upon arriving at work, I had a package from CLI. In it I found a Bible with the largest print I had ever seen. Needless to say I immediately headed down to visit this man and carry him God's gift.

It is my wish for everyone to know that God uses people and ministries like yours to work in the lives of people desperately seeking answers. The Christian literature from you is invaluable in my ministry and helps to meet the needs of

chaplains that are working in prisons everywhere. I know that your work is impossible without the help of God's people.

Many of us take for granted having God's Word within easy reach and have multiple books and Bibles at home. I pray that people will continue to support your ministry by donating new or slightly used Christian literature that can be put in the hands of people that need to hear from God. This is a great way for people to be involved in reaching people behind bars and sharing the Good News of Christ.

I also pray that people who would like to be involved in prison ministry continue to volunteer to correspond with inmates as they work through the correspondence Bible studies you offer. This is a favorite among the people that I serve. Thanks to you CLI and your team of volunteers, I was blessed to see a miracle from God in a very real way. God bless you all!

Visit www.cli.world to find out how you can donate books and volunteer.
